

Mayflower - Tonic Engine

Verse 1

(oh he)

F F
knew that all along she could do nothing but wro-ong and those
Bb C
glassy little eyes rolling over in her sleep, well in-
F Bb
side him they were fear and her roller coaster tears, were what
Dm C C7 F
helped him understand, there was no way he could love her more

Verse 2

(and there's)

F F
something she won't say she'll just lie and look awa-ay
Bb C
there is nothing he can do in the forest through the snow
F Bb
and a growing bobsled team gave him up and down hill dre-ams that'll
Dm C C7 F
hurt him when he leaves, when he tries to run away from June

Chorus

(so he)

F Bb Dm C
sat by her side let the sun present it's rays, and he
F Bb Dm C
knew it wasn't long until she'd make her great escape
F Dm Bb C F
so he tried not to grieve while he sat and longed for May—

Verse 3

(all his)

F F
shitty little lies won't make up for all this time
Bb C
I was stuck out in a trench oh I wrote you when I could
F Bb
I just want to go to bed, get these thoughts out of my head, was it
Dm C C7 F
something that I said? it was all the things you wouldn't say

Bridge

F Bb
here now friendlies don't you fret
F C
let me root around inside your bed
F Bb
oh your eyes they show a bitter light
F C Dm
how the hell did you get so tall
F C F
how the hell did they find you all—

Chorus

(so he)

F Bb Dm C
sat by her side let the sun present it's rays, and he
F Bb Dm C
knew it wasn't long until she'd make her great escape
F Dm Bb C F
so he tried not to grieve while he sat and longed for May—

Verse 4

(and there's)

F F
something she won't say, guess today's just not his da-ay, yeah he
Bb C
knows her far to well, King and Country might as well
F Bb
find the bright green butterflies, Russian men don't wanna die
Dm C C7 F
even when their children fly, they'll find joy in every lie we tell

Second Chorus

(so he)

F Bb Dm C
sat by her side watched the flowers dig a grave
F Bb Dm C
and the girl that got him high offered comfort in a cage
F Dm Bb C F
but he dug out her legs and he watched her walk away—
